

NORTHWEST PUMP & EQUIPMENT CO.

Q&A: the 4-Step EVR/ISD Upgrade Guide

1 Q: When are the upcoming EVR/ISD deadlines?

The upcoming deadlines are:

- **April 2009 for hardware**
- **Sept. 2009 for In-Station Diagnostics (ISD) Systems** (>1.8 mil. gal/yr)

Timeline published by California's Air Resources Board showing EVR upgrade requirements

2 Q: What types of equipment are being phased out?

All hanging hardware including *nozzles, hoses, swivels and breakaways* that are not Phase II certified by the California Air Resources Board (ARB).

3 Q: What ARB-certified equipment is available now?

Currently:

- Healy® offers ARB-certified vac-assist hardware
- VST® offers ARB-certified balance hardware
- Veeder-Root® offers ARB-certified ISD systems

All are available now from Northwest Pump

4 Q: What financing options do I have?

Northwest Pump's financing partner can offer attractive lease terms, covering the costs of both **equipment and installation!**

Contact Northwest Pump for more information.
