

When Your Mission Is To Keep The Biodiesel Revolution Moving Forward...

It's good to know the global leader in biodiesel flow solutions.

With more than 100 years of proven expertise and leadership in moving vegetable oils, detergents, oleo-chemicals and petrodiesel, Blackmer vane pumps are the natural choice for all your biodiesel flow applications.

For production, processing, pretreatment, blending, glycerin recovery and transport transfers, Blackmer pumps deliver flow performance and reliability unlike any other.

- Designed for B2 through B100
- Superior suction/lift capabilities for UST applications
- Capable of handling a wide range of viscosities
- Provide low shear, gentle liquid handling

When it comes to keeping the biodiesel revolution moving, producers and transporters around the world have a common demand...
